Karius Hutzlemann

Service - Metal - Leather

There is nothing I will abstain from learning. Call upon me for any need

Personal Profile

Quid Voibus Retribure

'Repay what has been given'

Almost Two years in service to the Society by way of two different kingdoms and crowns. I started in the glorious River Kingdom of Glean Abhann as part of the prestigious Shire of Lagerdamm. Mid-year AS48, I moved to one of the first-ever provinces, the Southern Shores.

I have been, fortunate in that the kindness of the province, Principality of the Mists and good gentles of the Kingdom of the West have accepted me as one of their own. Of note is the generosity and patience of both Master Frederick von Alton of Gleann Abhann and Duke Fabian Arnett von Sweitzegen. Patiently and generously they have both devoted time to my education and training in the arts, arms, chivalry and etiquette of SCA.

Capabilities

Partum, aut mori

'Make or Die'

It is a personal goal of mine to learn something of each art and science. It is lofty and near impossible, but what else is this life for? I enjoy the passion that the SCA brings out in people to share, teach and explore.
